

TRUE DEVOLUTION

DIRECT TAX ALLOCATION & CIVIC ACTION FRAMEWORK • NATIONAL RENEWAL PROJECT

EXECUTIVE SUMMARY

True Devolution is a flagship national renewal project created by **Unite Britain** to bridge the divide between citizens, businesses, and government by creating a direct mechanism for taxpayers to solve local problems. Rather than relying on central bureaucracies that lack fiscal efficiency, True Devolution establishes an online portal where verified local priorities—from social care and high-street regeneration to youth enrichment—are listed with baseline budgets. British businesses and individuals can execute solutions directly and offset up to 100% of their contributions against tax liabilities, cutting waste and driving grassroots prosperity.

ALIGNMENT WITH UNITE BRITAIN FRAMEWORK

3-STAGE STRATEGY

STAGE 01 • FOUNDATION

Dismantle Centralisation

Removes bureaucratic barriers holding back local communities. Replaces central civil service procurement with direct citizen and business action.

STAGE 02 • BUILD

Local Capital Investment

Directs regional wealth into immediate civic infrastructure, urban renewal, and social care programs across every UK district.

STAGE 03 • LEGACY

Participatory Governance

Establishes a permanent civic engine where business success directly funds public well-being, restoring national unity and self-reliance.

STRATEGIC OBJECTIVES

CORE PILLARS

1. GENUINE LOCAL EMPOWERMENT

Shifts spending power away from Whitehall bureaucrats directly into the hands of local citizens and businesses who possess deep knowledge of their community needs.

2. FISCAL & OPERATIONAL EFFICIENCY

Eliminates contractor markups and administrative bloat. Enables private enterprises to deploy existing equipment and staff at operational cost in exchange for tax credits.

3. ENTREPRENEURIAL INNOVATION

Incentivises UK entrepreneurs and SMEs to pivot business capabilities toward solving domestic structural challenges, unlocking regional job creation.

4. PUBLIC-PRIVATE CONVERGENCE

Replaces adversarial regulatory dynamics with a collaborative framework where enterprise success directly aligns with public benefit and civic renewal.

CORE OPERATING MECHANISM

WORKFLOW ARCHITECTURE

The True Devolution model operates through an open government portal connecting local priority listings directly with corporate tax ledgers. The end-to-end execution path ensures total transparency, quality control, and fraud prevention:

CORE PROJECT PILLARS

FIVE FOCUS AREAS

PROJECT PILLAR	PRIMARY DELIVERABLES	SAMPLE ENTERPRISE ACTION
Social Care & Health	Elderly care, mental health hubs, preventative care facilities	A private clinic constructs and operates a community mental health drop-in centre.
Environment & Waste	High-street recycling, park maintenance, flood defences	A regional logistics firm modernises waste collection and operates recycling facilities.
Urban Planning	High-street rejuvenation, housing conversion, public spaces	A construction consortium transforms derelict commercial units into affordable housing.
Education & Youth	Skills bootcamps, youth club revamps, apprenticeships	A tech company equips and runs vocational software training labs for at-risk youth.
Culture & Community	Community hall repairs, local transport shuttles, sports fields	A transport firm runs free electric community shuttles connecting isolated estates.

STAKEHOLDER VALUE MATRIX

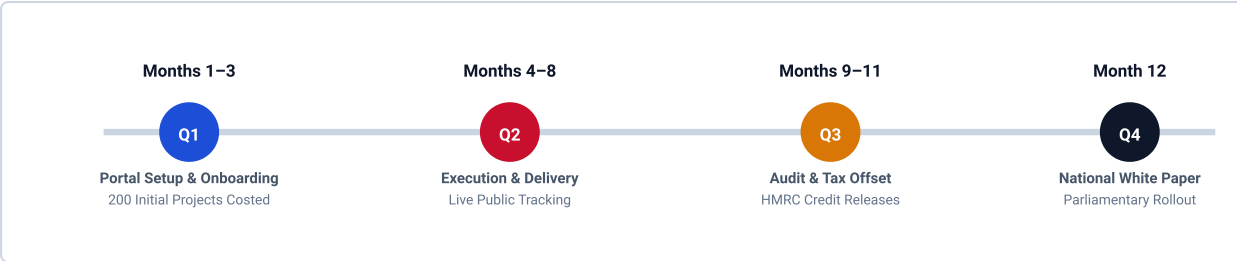

WIN-WIN MODEL

100% TAX TRANSPARENCY Taxpayers see exactly where their funds build local value.	-35% DELIVERY COST SMEs deliver services at operational cost without markups.	0% COUNCIL DEBT Public works delivered without raising local Council Tax.	+100 SME GROWTH Creates localised contracts and regional employment.
--	---	---	--

12-MONTH PILOT PROGRAMME

TRIAL FRAMEWORK

The 12-Month Pilot Programme tests the direct tax allocation framework across **4 diverse local authorities** (1 Metropolitan, 1 Industrial Renewal District, 1 Coastal/Rural Region, and 1 Suburban Unitary Council). With a pooled project budget baseline of **£50 Million**, the trial engages over 100 regional SMEs and civic groups.

PILOT GOVERNANCE MODEL

THREE-TIER OVERSIGHT

1. STEERING GROUP

Composed of Unite Britain delegates, HMRC liaisons, and council leaders to manage regulatory compliance and tax credit allocations.

2. TECHNICAL AUDIT BOARD

Independent engineering, healthcare, and safety inspectors verifying physical project quality before tax offsets are authorised.

3. CITIZEN PANELS

Local resident groups who provide a binding Community Approval Score via the online portal to confirm user satisfaction.

PRIORITY PILOT PROJECT TAXONOMY

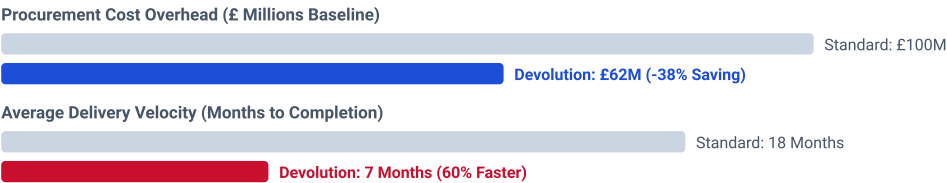

ALLOCATIONS

PILOT FOCUS AREA	TARGET DELIVERY MODEL	OFFSET RANGE
Social Care Day-Hubs	Healthcare SME fits out and staffs 3 preventative care hubs	£250,000 – £750,000
Waste & High-Street Renewal	Logistics provider renovates town micro-recycling centres	£100,000 – £400,000
Derelict Property Conversion	Local builders convert disused units into community space	£500,000 – £2,000,000
Youth Technical Bootcamps	Engineering firms build and equip apprenticeship workshops	£150,000 – £600,000
Community Transport & Parks	Groundskeeping SMEs restore sports grounds and park facilities	£50,000 – £300,000

CALL TO ACTION • NATIONAL RENEWAL ROLLOUT

True Devolution represents a fundamental shift from state paternalism to active citizenship. By adopting this pilot framework, participating councils and government partners will demonstrate how local enterprise can rebuild British civic infrastructure faster, cheaper, and with lasting national pride.
